

Curriculum Vitae
ADI NARAYAN
adi.narayan@yale.edu

EDUCATION

Yale University, New Haven, CT 2026 –
PhD in Psychology, *Concentration in Neuroscience*
Advisor: Lila Davachi

New York University, New York, NY 2022 – 2026
B.A in Mathematics and Psychology, *Concentration in Cognitive Neuroscience*

RESEARCH EXPERIENCE

Research Assistant 2025 – 2026
Winawer Lab, New York University
Advisors: Dr. Jonathan Winawer and Robert Woodry
Project: Hippocampus and Prefrontal Cortex Differentially Shape Memory Responses in Visual Cortex

- Investigated how higher-order regions shape memory representations in visual cortex by extracting trial-level BOLD activity and defining tertile splits to define high versus low activation states.
- Developed and validated neural precision metrics by fitting population receptive field (pRF) models, performing computational noise simulations, and correlating neural data with trial-by-trial behavioral performance.
- Quantified spatial tuning dynamics in visual cortex by plotting population response curves and computing bootstrap confidence intervals.
- Compared higher-order sub-regions to determine the spatial specificity of these top-down modulatory effects during memory tasks.

Research Assistant 2025 – 2026
Cognitive Development Lab, New York University
Advisor: Andrei Cimpian

- Managed daily lab operations, including participant recruitment, database maintenance, and appointment scheduling.
- Conducted remote and field-based data collection with children and families, all aiming to understand the way children reason about the world.

FELLOWSHIPS AND AWARDS

2026-2031	Doctoral Fellowship , Yale University	\$52000/year
2026	Dean's Undergraduate Conference Fund , New York University	\$500
2025	Dean's Undergraduate Research Fund , New York University	\$1250
2025	Dean's Opportunity Fund , New York University	\$500
2025	Martin Luther King Scholar Athlete Award , New York University	

2024-2025	Undergraduate Academic Scholarship , <i>New York University</i>	\$40,000/year
2022-2026	Scholar Athlete , <i>Intercollegiate Tennis Association</i>	

CONFERENCE PRESENTATIONS

TALKS

Narayan, A., Woodry, R., Curtis, C., Winawer, J. (May 2026). Hippocampus and Prefrontal Cortex Differentially Shape Memory Responses in Visual Cortex. *New York University Undergraduate Research Conference*

POSTERS

Narayan, A., Woodry, R., Curtis, C., Winawer, J. (2026). Hippocampus and Prefrontal Cortex Differentially Shape Memory Responses in Visual Cortex. Expected poster presentation at The Computational Cognitive Neuroscience 2026 Meeting, New York, NY.

ADDITIONAL EXPERIENCE

Undergraduate Tutor 2025 – 2026
NYU Computer Science Department

- CSCI-UA 101: Introduction to Computer Science (Summer 2025, Fall 2025)
- CSCI-UA 102: Data Structures and Algorithms (Fall 2025)

Quantitative Analytics Intern 2024
Extra-Cover Trading, New York, NY

- Performed exploratory data analysis on large sets of historical trading data to identify significant market trends, correlations, and anomalies.
- Developed and implemented a Black-Scholes pricing model to enhance the analytical capabilities of the company's trading platform.

Research Intern 2023
Digital Horizons, San Francisco, CA

- Analyzed the computational performance of the TensorFlow and PyTorch frameworks by building and testing benchmark models.
- Applied systematic parameter-tuning methods to analyze model behavior and optimize deep learning models for improved performance.

Residential Assistant 2024 – 2026
NYU Residential Life and Housing Services

- Mentored 900+ first-year residents and enhanced engagement through event planning, bi-weekly newsletters, and community-building initiatives
- Served as a primary resource for residents, providing guidance and resolving issues by applying campus knowledge and problem-solving skills

Facilities Lead 2023 – 2026
NYU Athletics

- Led a team of 60+ student workers, managing scheduling and overseeing day-to-day operations.
- Assisted in planning and executing the operational logistics for NCAA basketball and volleyball games, supporting events with over 1,000 attendees.

ACTIVITIES & LEADERSHIP

- Division III Women's Tennis Team Captain 2024 – 2026
– Coordinated all team practices and competition, and liaised between players and coaching staff.
- Student-Athlete Advisory Committee 2023 – 2026
– Led outreach to student-athletes to promote events and resources.
- The Andrew McDonough B+ Foundation 2023 – 2026
– Organized fundraising initiatives to raise money for children with cancer.

SKILLS

- Languages: English (native), Hindi (native), Kannada (native), Tamil (intermediate)
- Programming Languages: Python, Java, C++, MATLAB, R, SQL, HTML/CSS, JavaScript, Git
- Systems: Notifii, Microsoft Suite, Canva, Qualtrics, SONA
- Certifications: FERPA, HIPAA, CITI Social & Behavioral Research, CPR/AED, MRI Data Collection
