

Curriculum Vitae
ADI NARAYAN
646-398-4149 | adi.narayan@nyu.edu

EDUCATION

New York University, New York, NY Expected May 2026
B.A in Psychology with Mathematics, *Concentration in Cognitive Neuroscience*
Relevant Coursework: Cognitive Neuroscience, Developmental Psychology, Cognitive Development, Mathematical Statistics, Mathematical Modeling, Data Structures & Algorithms, Real Analysis, Abstract Algebra
GPA: 3.445

RESEARCH EXPERIENCE

Research Assistant March 2025 – Present
New York University Winawer Lab
Project: How Hippocampus and Prefrontal Cortex Differentially Modulate the Precision of Memory Responses in Visual Cortex.

- Investigated how higher-order regions shape memory representations in visual cortex by extracting trial-level BOLD activity and defining tertile splits to define high versus low activation states.
- Developed and validated neural precision metrics by fitting population receptive field (pRF) models, performing computational noise simulations, and correlating neural data with trial-by-trial behavioral performance.
- Quantified spatial tuning dynamics in visual cortex by plotting population response curves and computing bootstrap confidence intervals.
- Compared higher-order sub-regions to determine the spatial specificity of these top-down modulatory effects during memory tasks.

Research Assistant November 2025 – Present
New York University Cognitive Development Lab

- Managed daily lab operations, including participant recruitment, database maintenance, and appointment scheduling.
- Conducted remote and field-based data collection with children and families, all aiming to understand the way children reason about the world.

GRANTS AND AWARDS

New York University, <i>Dean's Undergraduate Research Fund</i>	October 2025
New York University, <i>Dean's Opportunity Fund</i>	October 2025
New York University, <i>Martin Luther King Scholar Athlete Award</i>	March 2025
New York University, <i>Undergraduate Academic Scholarship</i>	September 2022-2026
Intercollegiate Tennis Association, <i>Scholar Athlete</i>	September 2022-2026

CONFERENCE PRESENTATIONS

Narayan, A., Woodry, R., Curtis, C., Winawer, J. (2026). Hippocampus and Prefrontal Cortex Differentially Shape Memory Responses in Visual Cortex. Expected poster presentation at the Computational Cognitive Neuroscience 2026 Meeting, New York, NY.

Narayan, A., Woodry, R., Curtis, C., Winawer, J. (2026). Hippocampus and Prefrontal Cortex Differentially Shape Memory Responses in Visual Cortex. Contributed talk at the New York University 2026 Undergraduate Research Conference, New York, NY.

ADDITIONAL EXPERIENCE

Undergraduate Tutor June 2025 – Present
NYU Computer Science Department

- CSCI-UA 101: Introduction to Computer Science (Summer 2025, Fall 2025)
- CSCI-UA 102: Data Structures and Algorithms (Fall 2025)

Quantitative Analytics Intern May 2024 – December 2024
Extra-Cover Trading, New York, NY

- Performed exploratory data analysis on large sets of historical trading data to identify significant market trends, correlations, and anomalies.
- Developed and implemented a Black-Scholes pricing model to enhance the analytical capabilities of the company's trading platform.

Research Intern May 2023 – August 2023
Digital Horizons, San Francisco, CA

- Analyzed the computational performance of the TensorFlow and PyTorch frameworks by building and testing benchmark models.
- Applied systematic parameter-tuning methods to analyze model behavior and optimize deep learning models for improved performance.

Residential Assistant May 2024 - Present
NYU Residential Life and Housing Services

- Mentored 900+ first-year residents and enhanced engagement through event planning, bi-weekly newsletters, and community-building initiatives
- Served as a primary resource for residents, providing guidance and resolving issues by applying campus knowledge and problem-solving skills

Facility Supervisor May 2023 - Present
NYU Athletics

- Led a team of 60+ student workers, managing scheduling and overseeing day-to-day operations.
- Assisted in planning and executing the operational logistics for NCAA basketball and volleyball games, supporting events with over 1,000 attendees.

ACTIVITIES & LEADERSHIP

- Division III Women's Tennis Team Captain August 2024 - Present
 - Coordinated all team practices and competition, and liaised between players and coaching staff.
- Student-Athlete Advisory Committee September 2023 - Present
 - Led outreach to student-athletes to promote events and resources.
- The Andrew McDonough B+ Foundation September 2023 - Present
 - Organized fundraising initiatives to raise money for children with cancer.

SKILLS

- Languages: English (native), Hindi (native), Kannada (native), Tamil (intermediate)
- Programming Languages: Python, Java, C++, MATLAB, R, SQL, HTML/CSS, JavaScript
- Systems: Notifii, Microsoft Suite, Canva, Qualtrics, SONA
- Certifications: FERPA, HIPAA, CITI Social & Behavioral Research, CPR/AED, MRI Data Collection
